ensure their decisions are robust and soundly based, and to manage any potential conflicts of interest.

All to whom this policy applies are expected to continually demonstrate their own personal commitment to training and to ensuring that these objectives are met.

To assist in achieving these objectives and the creation of this policy, the fund adopts the following seven principles, and the guidance included in the Chartered Institute of Public Finance (CIPFA) Code of Practice 2021:

1. This LGPS administering authority adopts the key principles of the Code of Practice on LGPS Knowledge and Skills.
2. This LGPS administering authority recognises that effective management, governance, decision making and other aspects of the delivery of the LGPS can only be achieved where those involved have the requisite knowledge and skills to discharge the duties and responsibilities allocated to them.
3. This administering authority has in place formal and comprehensive objectives, policies and practices, strategies and reporting arrangements for the effective acquisition and retention of LGPS knowledge and skills for those responsible for the management, delivery, governance, and decision making of the LGPS.
4. These policies and practices will be guided by reference to a comprehensive framework of knowledge and skills requirements such as those set down in the CIPFA LGPS Knowledge and Skills Framework.
5. This administering authority will ensure that it has adequate resources in place to ensure all staff, members, or other persons responsible for the management, decision making, governance and other aspects of the delivery of the LGPS acquire and retain the necessary LGPS knowledge and skills.

Those responsible for governance: fund officers, pension committee and pension board should regularly carry out an audit of skills and experience and review its members' experience to identify gaps and imbalances, which will help inform training and recruitment needs.

The Head of Pensions – LGPS Senior Officer is the fund's designated individual responsible for ensuring that this Training Policy is implemented. This is in line with principle seven of the CIPFA Code of Practice.

To whom this policy applies

This training policy applies to all individuals that take on a decision making, scrutiny, operational, or oversight role in the fund. This includes:

- Officers of the administering authority involved in the management and administration of the fund.

The fund's approach to training will be supportive with the intention of providing pension fund committee members, pension board members and officers with regular sessions that will contribute to their level of skills and knowledge. The fund will develop a rolling Training Plan, which takes account the level of knowledge and understanding of technical pensions topics required according to the role of the individual.

Training requirements for key individuals will be identified having regard for:

- topics identified in relevant frameworks or in publications by relevant bodies (e.g. CIPFA, TPR, Government Guidance etc)
- the workplan of the fund; and
- current or topical issues.

Training plans should include the competencies highlighted in relevant frameworks as well as special topics – for example:

- a focus on decisions to be made in the forward plan of committee business.
- those relating to areas of change or special interest.

Individual training needs

A training needs analysis will be developed for committee members, pension board members and officers to identify the key areas in which training is required. This evaluation will be undertaken on a regular basis. Using a knowledge and Skills Assessment.

Training on the identified areas will be provided as necessary and an on-going refresher basis. The fund's rolling Training Plan will ensure these training requirements are met and maintain training records of key individuals against the training plan.

Topic based training

The need for appropriately timed training in relation to current topics, such as when decisions are required in relation to complex issues or in new areas not previously considered will be provided as required.

General awareness

How training will be provided

Training will be delivered through a variety of methods including:

- in-house training sessions provided by officers and/or external providers;

- The Hymans online learning academy which covers all the key areas of the CIPFA knowledge and skills framework.

Pension Qualifications, Induction process

On joining either as an officer, Pensions Committee, or Pensions Board member, the fund will provide induction training. This should also include, where appropriate, access to any induction information which forms part of the administering authority's corporate induction. Members of the committee and Board should also be provided with documentation that would provide a basic understanding of the fund (i.e. Introduction to the LGPS guide). Guidance from The Pensions Regulator states newly appointed members of committees should attain the required level of knowledge within six months of being appointed. The fund will aim to comply with this recommendation. A review of training completed in the first 6 months will be undertaken and a training plan will be developed to cover learning not yet undertaken.

Monitoring knowledge and skills

To identify whether the objectives of this policy are being met, the fund will maintain a training log which records attendance at training and compare this to the Training Plan. An assessment will be made on whether committee and pension board members and senior officers have the required knowledge and skills required to undertake their role. As a minimum, the fund will carry out the following to monitor and review knowledge and skills:

- record attendance at training and ensure action is taken where poor attendance is identified.
- prepare training plans for committee members and officers.
- require members and officers to undertake self-assessment against the required competencies.
- communicate regularly with members and officers, encouraging them to highlight training needs on an ongoing basis.

The record of training attended by committee and Board members will be kept up-to-date and made available to stakeholders in the fund's annual report and accounts each year. Individuals are responsible for ensuring their training record is up-to-date and accurate.

Key risks

The key risks to the delivery of this policy are outlined below. The pension fund committee members, with the assistance of the pension board and officers, will monitor these and other key risks and consider how to respond to them.

- Changes to the committee and/or pension board membership and/or officer's potentially diminishing knowledge and understanding.
- Poor attendance and/or a lack of engagement at training and/or formal meetings by committee members, pension board members and/or other officers resulting in a poor standard of decision making, administration and/or monitoring.
- Insufficient resources being available to deliver or arrange the required training.
- The quality of advice or training provided not being of an acceptable standard.
- Substitute members who may not have the same level of knowledge, skills and access to training as the main committee members. Substitute members should ideally have sufficient knowledge and skills to fulfil the role effectively and be provided with access to training as required.

Success measures and reporting

- For committee and Board members knowledge gaps will be identified in regular assessments and a training plan created to cover topics where training is required.
- The training log will record attendance and provide evidence of the training attended by each committee and Board member. This will be used to identify any concerns around non-attendance or commitment to training.

- Feedback following training will be requested in order to implement any suggested changes for future training sessions.

The fund's committee members and pension board members will be provided with details of forthcoming seminars, conferences and other relevant training events.

For pension fund officers, training is recorded, and a gap analysis is regularly undertaken as part of each individual's personal development plan.

Costs

Where there is a cost involved in providing the training this will be met directly by the fund.

The relevant competencies and degree of knowledge and understanding required

To ensure all individuals to whom this policy applies work towards what is required, a knowledge matrix has been developed which is shown below. The matrix determines the level of knowledge required of the eight core technical areas highlighted by the CIPFA guidance for officers, committee and the pension board. The core areas listed below have been identified as the key skills that lie at the core in the training for those involved in public sector pension's finance. The knowledge matrix is not exhaustive and other technical or non-pensions related skills will be identified on an individual basis within job descriptions or via annual assessment.

Key roles in the LGPS - Degree of knowledge and understanding required

The arrangements for the governance and delegation of responsibilities are outlined in the Governance Compliance Statement and Shropshire Council's constitution (where appropriate). In line with principle two of the CIPFA Code of Practice, the degree of knowledge and understanding required is that which is appropriate for the purposes of enabling the individual to properly exercise their delegated responsibility on behalf of the administering authority. The guidance
